Pete Wilson, Governor
State of California

Peter M. Rooney, Acting Secretary
California Environmental Protection Agency

James W. Wells, Director
Department of Pesticide Regulation

ACKNOWLEDGEMENTS

I thank Dr. Javier Trujillo Arriaga, Director General of Sanidad Vegetal de Mexico; Dr. Gustavo A. Frias Trevino, Director of the Centro Nacional de Referencia Fitosanitaria; and M.C. Hugo Cesar Arredondo Bernal, Sub Director of the Centro Nacional de Referencia de Control Biologico, for the information they have provided on commercial suppliers of beneficial organisms in Mexico.

I also thank Dr. Michael J. Orazo, Acting Director of the National Biological Control Institute (USDA, APHIS, PPQ), for his review and support; Daniel Cahn, President of the Association of Natural Bio-control Producers, for his review and technical input; Larry Bezark, Biological Control Program (California Department of Food and Agriculture), for his review and technical input; Department of Pesticide Regulation staff members -- Lyndon Hawkins and Drs. Madeline Brattesani and Larry Wilhoit for their reviews, technical input, and helpful comments; Angelica Marin Welsh for her assistance with Spanish communications and translations; Susan E. Swanberg for her assistance in collecting data and doing much of the work in compiling this listing, her dedication to the project, and for all of her many helpful suggestions.

This material was made possible, in part, by a grant from the United States Department of Agriculture's Animal and Plant Health Inspection Service (APHIS), Plant Protection and Quarantine (PPQ), National Biological Control Institute (NBCI). It may not necessarily express APHIS' views.

DISCLAIMER

Inclusion in this publication does not imply an endorsement of the suppliers or their products by the California Environmental Protection Agency, the Department of Pesticide Regulation, or the author, nor does this publication imply criticism of other suppliers not listed. For some of the organisms listed there may be government restrictions on their use and permits may be required for their shipment and release; consult with your local agricultural regulatory agency. If permits are required, often the supplier has them or can assist in obtaining them. This pamphlet may be freely reproduced with proper credit.

Introduction

As in past editions, this publication lists beneficial organisms sold for use as biological controls of pest organisms. Other commercially available organisms such as bumble bees and earthworms may be mentioned briefly in the comment sections of some suppliers.

Biological controls that are single-celled organisms such as bacteria, fungi, protozoans, and viruses are defined as pesticides by the United States Environmental Protection Agency (U.S. EPA). In the United States of America (U.S.A.), the sale and use of these organisms are governed by U.S. EPA and state laws and regulations applicable to chemical pesticides. These organisms are widely available commercially and are not listed in this publication except in some instances in the comment sections of some suppliers.

This edition lists 142 suppliers and over 130 different species of beneficial organisms. Only commercial suppliers are listed. The suppliers are listed by country. The listing of Canadian suppliers begins on page 3, followed by Mexican suppliers beginning on page 5, and U.S.A. suppliers beginning on page 10. All the information on Mexican suppliers was obtained from Centro Nacional de Referencia de Control Biologico de la Direccion General de Sanidad Vegetal.

In each section, the suppliers are listed alphabetically with each listing preceded by a **supplier number**. Each supplier number begins with the first letter of the country in which the supplier is located (C = Canada, M = Mexico, U = U.S.A.). Each listing includes the name, address, telephone, facsimile, and E-mail numbers of the supplier along with a retail/wholesale notation. Under the retail/wholesale notation, there may also be a brief comment submitted by the supplier on their specialties and/or the services they can provide. "ANBP member" refers to Association of Natural Bio-control Producers (ANBP). ANBP is an organization of companies and individuals whose goals are to enhance the standardization and the quality control of commercially available beneficial organisms, and the dissemination of accurate information on their handling and use.

Included are two separate indexes to suppliers of beneficial organisms. Both indexes use scientific names because most beneficial organisms do not have common names. The first index, starting on page 22, lists beneficial organisms under 13 different categories. The first category is **predatory mites**, followed by **parasitic nematodes**, etc. Within each category, the organisms are listed alphabetically by their scientific name, followed by a brief notation on the organism or its use and the supplier number for each of the suppliers that have stated that they can supply that specific organism.

The second index, starting on page 28, is a **scientific names index** to all the different species of beneficial organisms listed in this publication. After each scientific name follows one or more supplier numbers identifying the companies that sell the organism. To locate the companies, use these numbers and refer to the appropriate suppliers lists (Canada, Mexico, U.S.A.).

Special Notes

This listing provides only general information on the beneficial organisms and their use against pests. It makes no recommendations and does not imply an endorsement of the suppliers or their products. The beneficial organisms listed may attack other organisms that are not listed. The author has listed each beneficial organism by its currently accepted scientific name and takes full responsibility for any errors in nomenclature or in the information presented. In some rare instances, the names of organisms submitted by companies were not listed because the companies did not provide supporting information on the organisms or their use.

Before using any type of pest control, be sure of the identity of the pest(s). Sometimes, beneficial organisms are confused with pests, especially in their immature stages, and control measures are mistakenly applied.

In addition to offering biological control organisms, some of the companies listed can provide consultation services. These services can be extremely valuable in establishing integrated pest management (IPM) programs of which biological control is a major part. Many of the suppliers also have literature available and some have company Web sites on the Internet with information about beneficial organisms and how to use them.

A short list of **selected references** on biological control and IPM is included on page 31. A brief listing of university and government **Web sites** on biological control and IPM is included on page 32. An electronic database on suppliers of beneficial organisms in North America with additional information on biological control and IPM can be accessed through the Department of Pesticide Regulation's Home Page at <http://www.cdpr.ca.gov>

IMPORTANT NOTICE

With the proper permits, most of the organisms listed in this booklet can be shipped interstate and in many cases between countries. The suppliers should be aware of the permits required and may often have the permits on hand to ship to your area. In some cases, suppliers may require assistance in obtaining permits. In some situations, the importation or transport of certain species is prohibited.

California Residents

The **grass carp** and the **decollate snail** listed in this booklet are **prohibited species in California**.

The importation or transportation of the **grass carp** or **white amur** (*Ctenopharyngodon idella*) is **prohibited** in California by the California Fish and Game Commission [Title 14, Section 671, California Code of Regulations].

The importation or transportation of the **decollate snail** (*Rumina decollata*) is **prohibited** in California by the California Fish and Game Commission, **except** in the counties of Imperial, Los Angeles, Orange, Riverside, San Bernardino, San Diego, Santa Barbara, Tulare, and Ventura with the concurrence of the appropriate county agricultural commissioner [Title 14, Section 671, California Code of Regulations]. On August 6, 1993, the California Fish and Game Commission authorized the use of decollate snail in citrus orchards in Kern, Fresno, and Madera counties. Their use requires the approval of the appropriate county agricultural commissioner. **Except** for the above 12 counties, the use of the decollate snail in California is **prohibited**.

The importation and transportation of live **crustaceans, molluscs, fish, amphibians, reptiles, birds, and mammals may require a permit**. For further information contact: California Department of Fish and Game, Inland Fisheries Division, 1416 9th Street, Sacramento, California 95814. Telephones: (916) 653-8262 (for aquatic animals) - (916) 653-9742 (for other species).

Non-California Residents

Your federal and/or state/provincial regulations may prohibit the importation or transport of some biological control organisms. Contact your local agricultural officials for further information.

Predatory Mites

- Galendromus annectans* - for pest mites - U03, U05, U06, U19, U20, U23, U24, U32, U47, U78
- Galendromus* (= *Typhlodromus*) *helveolus* - for Persea mite on avocados - C09, C11, U03, U05, U06, U08, U19, U20, U23, U24, U31, U32, U47, U61, U78, U88, U92
- Galendromus* (= *Metaseiulus*, = *Typhlodromus*) *occidentalis* - western predatory mite for spider mites - C06, C07, C09, C11, C14, U02, U03, U04, U05, U06, U08, U12, U13, U19, U20, U22, U23, U24, U30, U31, U32, U40, U42, U43, U44, U48, U49, U51, U52, U61, U63, U66, U67, U73, U74, U78, U80, U82, U83, U88, U89, U92, U93, U95
- Hypoaspis aculeifer* - for fungus gnats and flower thrips - U56, U75
- Hypoaspis miles* - for fungus gnats and flower thrips - C01, C04, C06, C07, C08, C09, C11, C12, C14, U03, U06, U23, U24, U30, U31, U40, U42, U43, U44, U50, U51, U56, U64, U69, U75, U78, U88, U89, U92
- Iphiseius* (*Amblyseius*) *degenerans* - for western flower thrips and pest mites - C01, C04, C07, C08, C11, C12, C14, U05, U31, U50, U51, U56, U78, U88, U89, U92
- Mesoseiulus* (= *Phytoseiulus*) *longipes* - for spider mites - C07, C09, C11, C12, C14, U05, U06, U08, U13, U20, U24, U30, U31, U36, U42, U43, U44, U50, U51, U52, U67, U73, U74, U78, U88, U89, U92, U95
- Neoseiulus* (= *Amblyseius*, = *Phytoseiulus*) *barkeri* (= *mckenziei*) - for thrips - C09, C11, C14, U05, U06, U24, U51, U66, U80, U88
- Neoseiulus* (= *Amblyseius*) *californicus* - for spider mites - C04, C06, C07, C08, C09, C11, C14, U03, U05, U06, U08, U09, U13, U19, U20, U24, U29, U30, U31, U36, U37, U42, U43, U44, U50, U51, U52, U56, U66, U67, U69, U73, U74, U75, U78, U80, U88, U89, U92, U95
- Neoseiulus* (= *Amblyseius*) *cucumeris* - for thrips, cyclamen and broad mites - C01, C03, C04, C06, C07, C08, C09, C10, C11, C12, C14, U03, U05, U06, U09, U11, U13, U23, U24, U26, U29, U30, U31, U34, U37, U42, U43, U44, U50, U51, U52, U56, U64, U66, U67, U69, U73, U74, U75, U78, U80, U88, U89
- Neoseiulus* (= *Amblyseius*) *fallacis* - for European red and twospotted spider mites - C01, C07, C11, C12, C14, U05, U06, U09, U20, U24, U31, U37, U44, U50, U51, U78, U85, U88, U89, U92
- Neoseiulus setulus* - for cyclamen mites on strawberries - U06
- Phytoseiulus macropilis* - for spider mites - U05, U20, U30, U51, U89
- Phytoseiulus persimilis* - for spider mites - C01, C03, C04, C06, C07, C08, C09, C11, C12, C14, U03, U04, U05, U06, U08, U09, U11, U13, U20, U23, U24, U26, U27, U29, U30, U31, U32, U34, U36, U37, U40, U42, U43, U44, U50, U51, U52, U56, U57, U63, U64, U66, U67, U69, U73, U74, U75, U78, U86, U87, U88, U89, U92, U95
- Pyemotes tritici* - straw itch mite for ants and stored product pests - U24, U29, U72
- Typhlodromus pyri* - for various apple and other orchard mites - U44
- Typhlodromus rickeri* - for various orchard mites - U20, U78

Parasitic Nematodes

- Heterorhabditis bacteriophora* (= *heliolithidis*) - for manure flies, caterpillars, weevil larvae, and other soil-dwelling insects - C03, C09, C11, C12, U06, U09, U11, U17, U24, U31, U35, U36, U40, U42, U43, U44, U46, U51, U61, U64, U67, U68, U73, U74, U78, U80, U88, U89
- Heterorhabditis megidis* - for various soil-dwelling insects - C07, C08, C09, U06, U24, U40, U50, U56, U61, U75, U95
- Steinernema* (= *Neoaplectana*) *carpocapsae* - for caterpillars, beetle larvae, some flies, and other soil-dwelling insects - C03, C06, C07, C09, C10, C11, C12, C13, C14, U05, U06, U09, U11, U13, U17, U18, U21, U23, U24, U31, U39, U40, U42, U43, U44, U49, U52, U61, U63, U64, U67, U70, U73, U74, U78, U80, U88, U89, U91, U95
- Steinernema* (= *Neoaplectana*) *feltiae* (= *bibionis*) - for various soil-dwelling insects - C04, C07, C08, C11, U05, U06, U17, U24, U29, U30, U35, U40, U44, U46, U50, U51, U56, U64, U73, U75, U91
- Steinernema* (= *Neoaplectana*) *glaseri* - for soil-dwelling white grubs - U05, U06, U24, U40, U87
- Steinernema riobravo* - for corn earworm, mole crickets, and the larvae of citrus weevils - U05, U06, U24, U40, U49, U91

Stored Product Pest Parasites and Predators

- Anisopteromalus calandrae* - a parasite for weevils - U15, U26
- Bracon hebetor* - a parasite for moth larvae - U06, U15, U24, U26, U72
- Pyemotes tritici* - straw itch mite, a predator for beetles and moths - U24, U29, U72
- Xylocoris flavipes* - warehouse pirate bug, a predator for various insects - U15, U24, U72

Aphid Parasites and Predators

Aphelinus abdominalis - a parasite - C04, C07, C08, C11, U29, U51, U56, U89

Aphidoletes aphidimyza - a predator - C01, C03, C04, C06, C07, C08, C11, C14, U03, U05, U06, U09, U11, U13, U23, U24, U26, U29, U30, U31, U32, U39, U40, U42, U43, U44, U50, U51, U52, U56, U64, U66, U67, U73, U74, U75, U78, U88, U89, U92, U95

Aphidius colemani - a parasite - C04, C06, C07, C08, C11, C12, C14, U05, U23, U24, U29, U30, U31, U34, U39, U40, U42, U43, U50, U51, U52, U56, U69, U74, U75, U78, U88, U89

Aphidius ervi - a parasite - U56, U69

Aphidius matricariae - a parasite - C01, C07, C14, U05, U06, U24, U30, U31, U32, U43, U44, U51, U64, U67, U78, U88, U89, U92, U95

Chrysoperla (= *Chrysopa*) *carnea* - common green lacewing, a predator - C03, C04, C06, C07, C10, C11, C12, C14, M03, M07, M08, M09, M11, M12, M14, M17, M18, M20, M21, M24, M27, M29, M30, U01, U03, U04, U05, U06, U07, U11, U12, U19, U22, U23, U24, U26, U29, U30, U31, U32, U36, U39, U40, U42, U43, U44, U47, U49, U50, U51, U56, U58, U61, U63, U66, U67, U72, U78, U80, U82, U89, U90, U92, U94, U95

Chrysoperla (= *Chrysopa*) *comanche* - Comanche lacewing, a predator - C14, U04, U05, U06, U07, U12, U22, U23, U24, U26, U31, U40, U42, U44, U49, U50, U61, U80, U82, U89

Chrysoperla (= *Chrysopa*) *rufilabris* - a green lacewing, a predator - C02, C03, C05, C09, C11, C14, M31, U01, U03, U04, U05, U06, U07, U08, U09, U11, U12, U13, U15, U21, U22, U23, U24, U26, U30, U31, U36, U39, U40, U42, U43, U44, U47, U49, U50, U51, U52, U58, U61, U64, U67, U69, U72, U73, U74, U78, U80, U82, U87, U88, U89, U92, U94, U95

Coleomegilla maculata - pink spotted lady beetle, a predator - C05

Deraeocoris brevis - a true bug, a predator - C01, C07, C11, C14, U06, U31, U44, U78, U89, U92

Diaeretiella rapae - a parasite - U06

Harmonia axyridis - Asian multi-colored lady beetle, a predator - C01, C05, C08, C11, U31, U78, U89

Hippodamia convergens - convergent lady beetle, a predator - C03, C06, C07, C08, C09, C10, C11, C12, C13, C14, U01, U03, U04, U05, U06, U07, U09, U11, U12, U13, U15, U23, U24, U29, U30, U31, U36, U40, U42, U43, U44, U49, U50, U51, U52, U56, U58, U59, U60, U61, U63, U64, U66, U67, U73, U74, U75, U78, U82, U87, U88, U89, U90, U92, U94, U95

Lysiphlebus testaceipes - a parasite - U72

Macrolophus caliginosus - a predator - C07, C11

Orius insidiosus - a predator - C04, C06, C07, C08, C09, C11, C12, C14, U05, U06, U09, U13, U24, U30, U31, U34, U42, U43, U44, U50, U51, U56, U64, U67, U69, U73, U74, U75, U78, U80, U88, U89, U92, U95

Orius tristicolor - minute pirate bug, a predator - C03, C09, C10, U05, U06, U11, U23, U24, U30, U66, U78, U95

Whitefly Parasites and Predators

Chrysoperla (= *Chrysopa*) *carnea* - common green lacewing, a predator - C03, C04, C06, C07, C10, C11, C12, C14, M03, M07, M08, M09, M11, M12, M14, M17, M18, M20, M21, M24, M27, M29, M30, U01, U03, U04, U05, U06, U07, U11, U12, U19, U22, U23, U24, U26, U29, U30, U31, U32, U36, U39, U40, U42, U43, U44, U47, U49, U50, U51, U56, U58, U61, U63, U66, U67, U72, U78, U80, U82, U89, U90, U92, U94, U95

Chrysoperla (= *Chrysopa*) *comanche* - Comanche lacewing, a predator - C14, U04, U05, U06, U07, U12, U22, U23, U24, U26, U31, U40, U42, U44, U49, U50, U61, U80, U82, U89

Chrysoperla (= *Chrysopa*) *rufilabris* - a green lacewing, a predator - C02, C03, C05, C09, C11, C14, M31, U01, U03, U04, U05, U06, U07, U08, U09, U11, U12, U13, U15, U21, U22, U23, U24, U26, U30, U31, U36, U39, U40, U42, U43, U44, U47, U49, U50, U51, U52, U58, U61, U64, U67, U69, U72, U73, U74, U78, U80, U82, U87, U88, U89, U92, U94, U95

Delphastus pusillus - a predator - C01, C03, C04, C07, C09, C11, C12, C14, U03, U05, U06, U09, U11, U13, U19, U23, U24, U29, U31, U37, U39, U42, U43, U44, U50, U51, U52, U67, U73, U74, U78, U80, U88, U89, U92, U95

Deraeocoris brevis - a true bug, a predator - C01, C07, C11, C14, U06, U31, U44, U78, U89, U92

Encarsia deserti (= *luteola*) - a parasite for sweetpotato and silverleaf whiteflies - U03, U05, U43, U50, U88

Encarsia formosa - a parasite for greenhouse whitefly - C01, C03, C04, C06, C07, C08, C09, C10, C11, C12, C14, U03, U04, U05, U06, U07, U09, U11, U13, U21, U23, U24, U26, U29, U31, U32, U34, U36, U37, U39, U40, U42, U43, U44, U50, U51, U52, U56, U63, U64, U66, U67, U69, U72, U73, U74, U75, U78, U80, U87, U88, U89, U92, U95

Eretmocerus californicus - a parasite for sweetpotato and silverleaf whiteflies - C04, C07, C08, C09, C11, U03, U05, U06, U08, U24, U31, U34, U40, U43, U50, U51, U56, U64, U69, U75, U78, U88, U89

Macrolophus caliginosus - a predator - C07, C11

Parasites and Predators for Greenhouse Pests

Aphelinus abdominalis - a parasite for aphids - C04, C07, C08, C11, U29, U51, U56, U89

Aphidoletes aphidimyza - a gall midge, a predator for aphids - C01, C03, C04, C06, C07, C08, C11, C14, U03, U05, U06, U09, U11, U13, U23, U24, U26, U29, U30, U31, U32, U39, U40, U42, U43, U44, U50, U51, U52, U56, U64, U66, U67, U73, U74, U75, U78, U88, U89, U92, U95

Aphidius colemani - a parasite for aphids - C04, C06, C07, C08, C11, C12, C14, U05, U23, U24, U29, U30, U31, U34, U39, U40, U42, U43, U50, U51, U52, U56, U69, U74, U75, U78, U88, U89

Aphidius matricariae - a parasite for aphids - C01, C07, C14, U05, U06, U24, U30, U31, U32, U43, U44, U51, U64, U67, U78, U88, U89, U92, U95

Cryptolaemus montrouzieri - mealybug destroyer, a predator for various scales and mealybugs - C03, C04, C06, C07, C08, C09, C11, C12, C14, U03, U05, U06, U09, U11, U12, U13, U19, U23, U24, U26, U29, U30, U31, U32, U34, U39, U40, U42, U43, U44, U47, U49, U50, U51, U52, U56, U63, U64, U66, U67, U69, U71, U73, U74, U75, U78, U80, U82, U88, U89, U92, U95

Dacnusa sibirica - a parasite for leafminers - C04, C06, C07, C08, C11, C14, U03, U06, U24, U29, U31, U40, U43, U50, U51, U56, U66, U69, U75, U78, U89, U92

Delphastus pusillus - a predator for whiteflies - C01, C03, C04, C07, C09, C11, C12, C14, U03, U05, U06, U09, U11, U13, U19, U23, U24, U29, U31, U37, U39, U42, U43, U44, U50, U51, U52, U67, U73, U74, U78, U80, U88, U89, U92, U95

Diaeretiella rapae - a parasite for aphids - U06

Diglyphus isaea - a parasite for leafminers - C04, C06, C07, C08, C09, C11, C14, U03, U06, U24, U29, U31, U40, U42, U43, U44, U50, U51, U52, U56, U66, U69, U74, U75, U78, U88, U89, U92

Encarsia deserti (= *luteola*) - a parasite for sweetpotato and silverleaf whiteflies - U03, U05, U43, U50, U88

Encarsia formosa - a greenhouse whitefly parasite - C01, C03, C04, C06, C07, C08, C09, C10, C11, C12, C14, U03, U04, U05, U06, U07, U09, U11, U13, U21, U23, U24, U26, U29, U31, U32, U34, U36, U37, U39, U40, U42, U43, U44, U50, U51, U52, U56, U63, U64, U66, U67, U69, U72, U73, U74, U75, U78, U80, U87, U88, U89, U92, U95

Eretmocerus californicus - a parasite for sweetpotato and silverleaf whiteflies - C04, C07, C08, C09, C11, U03, U05, U06, U08, U24, U31, U34, U40, U43, U50, U51, U56, U64, U69, U75, U78, U88, U89

Feltiella acarisuga (= *Therodiplosis persicae*) - a gall midge, a predator for mites - C01, C04, C11, C12, C14, U31, U78, U89

Hippodamia convergens - convergent lady beetle, a general predator - C03, C06, C07, C08, C09, C10, C11, C12, C13, C14, U01, U03, U04, U05, U06, U07, U09, U11, U12, U13, U15, U23, U24, U29, U30, U31, U36, U40, U42, U43, U44, U49, U50, U51, U52, U56, U58, U59, U60, U61, U63, U64, U66, U67, U73, U74, U75, U78, U82, U87, U88, U89, U90, U92, U94, U95

Hypoaspis aculeifer - a predatory mite for fungus gnats and flower thrips - U56, U75

Hypoaspis miles - a predatory mite for fungus gnats and flower thrips - C01, C04, C06, C07, C08, C09, C11, C12, C14, U03, U06, U23, U24, U30, U31, U40, U42, U43, U44, U50, U51, U56, U64, U69, U75, U78, U88, U89, U92

Iphiseius (= *Amblyseius degenerans*) - a predatory mite for western flower thrips and pest mites - C01, C04, C07, C08, C11, C12, C14, U05, U31, U50, U51, U56, U78, U88, U89, U92

Lysiphlebus testaceipes - a parasite for aphids - U72

Orius insidiosus - a general predator - C04, C06, C07, C08, C09, C11, C12, C14, U05, U06, U09, U13, U24, U30, U31, U34, U42, U43, U44, U50, U51, U56, U64, U67, U69, U73, U74, U75, U78, U80, U88, U89, U92, U95

Orius tristicolor - minute pirate bug, a general predator - C03, C09, C10, U05, U06, U11, U23, U24, U30, U66, U78, U95

Scolothrips sexmaculatus - sixspotted thrips, a predator for mites and thrips - U02, U03, U05, U19, U23, U48, U49, U78, U82, U83, U92

Stethorus punctillum - a predator for mites - C01, U89

Thripobius semiluteus - a parasite for thrips - C09, C11, U03, U06, U23, U24, U32, U44, U47, U51, U61, U67, U73, U78, U88, U89, U95

Scale and Mealybug Parasites and Predators

Aphytis melinus - a parasite for red scale - C03, C09, C11, C12, C14, U03, U05, U06, U11, U12, U23, U24, U26, U30, U31, U32, U33, U38, U39, U42, U43, U44, U47, U49, U51, U64, U66, U71, U73, U78, U81, U82, U83, U88, U89, U92

Cryptolaemus montrouzieri - mealybug destroyer, a predator for various scales and mealybugs - C03, C04, C06, C07, C08, C09, C11, C12, C14, U03, U05, U06, U09, U11, U12, U13, U19, U23, U24, U26, U29, U30, U31, U32, U34, U39, U40, U42, U43, U44, U47, U49, U50, U51, U52, U56, U63, U64, U66, U67, U69, U71, U73, U74, U75, U78, U80, U82, U88, U89, U92, U95

Leptomastix dactylopii - a parasite for citrus mealybug - C04, C07, C08, C09, C11, C14, U06, U24, U30, U31, U43, U44, U50, U51, U56, U75, U88, U89

Metaphycus helvolus - a parasite for black scale - C03, C07, C09, C11, C14, U05, U06, U11, U24, U31, U33, U42, U43, U44, U50, U51, U66, U73, U78, U81, U88, U89, U92

Pseudaphycus angelicus - a parasite for mealybugs - U69

Rhyzobius (= *Lindorus*) *lophanthae* - a predator for various scales - C09, C11, C14, U05, U06, U24, U30, U31, U42, U43, U44, U50, U51, U64, U78, U88, U89, U92

Rhyzobius (= *Lindorus*) *ventralis* - a predator for various scales - U78

Insect Egg Parasites

Anagrus epos - for leafhoppers - U44

Anaphes iole - for lygus bugs - C05, C10, C11, U20, U51, U78, U88, U89, U92

Anastatus tenuipes - for brownbanded cockroaches - U76

Aprostocetus (= *Tetrastichus*) *hagenowii* - for American, smokey, brown, Australian, Oriental cockroaches - U76

Comperia merceti - for brownbanded cockroaches - U76

Trichogramma brassicae - for exposed eggs of various moths and pest butterflies - C02, C05, C06, C07, C09, C11, C12, C14, U04, U05, U06, U08, U09, U22, U23, U24, U31, U39, U44, U51, U52, U56, U61, U64, U67, U72, U73, U74, U75, U78, U87, U88, U92

Trichogramma evanescens - for exposed eggs of various moths and pest butterflies - C07, C09, C14, U05, U06, U08, U24, U50, U72

Trichogramma exiguum - for exposed eggs of various moths and pest butterflies- M16, M18, M24

Trichogramma minutum - minute egg parasite, primarily for exposed eggs of various moths and butterflies in orchards - C02, C03, C09, C11, C14, M13, M22, U01, U04, U05, U06, U07, U08, U09, U11, U12, U13, U19, U24, U29, U31, U36, U39, U40, U42, U43, U44, U49, U50, U51, U52, U58, U63, U64, U66, U67, U72, U73, U74, U78, U80, U82, U88, U89, U90, U92, U94, U95

Trichogramma platneri - primarily for exposed eggs of various moths and butterflies in orchards - C02, C07, C09, C11, C12, C14, U01, U03, U04, U05, U06, U07, U08, U12, U13, U19, U22, U23, U24, U26, U31, U32, U39, U42, U44, U47, U49, U50, U52, U61, U63, U64, U66, U67, U72, U73, U74, U78, U82, U88, U89, U92

Trichogramma pretiosum - primarily for exposed eggs of various moths and butterflies in vegetable and field crops - C02, C03, C09, C10, C11, C14, M01, M02, M03, M05, M06, M10, M11, M12, M13, M15, M17, M19, M20, M21, M22, M23, M25, M26, M27, M30, M31, M32, M33, U01, U03, U04, U05, U06, U07, U08, U09, U11, U12, U13, U15, U19, U21, U22, U24, U26, U29, U31, U32, U36, U39, U40, U42, U43, U44, U49, U50, U51, U52, U58, U61, U63, U64, U66, U67, U72, U73, U74, U78, U82, U87, U88, U89, U90, U92, U94, U95

Trichogrammatoidea bactrae - for exposed eggs of various moths and pest butterflies - C09, M04, U04, U05, U06, U23, U24, U31, U39, U44, U50, U61, U63, U72, U78, U92

Moth and Butterfly Larval Parasites

Bracon hebetor - for moths in stored products - U06, U15, U24, U26, U72

Cotesia flavipes - for sugar cane borer - M05, U24

Cotesia melanoscelus - for gypsy moth - U24

Cotesia plutellae - for diamondback moth - U15, U26

Goniozus legneri - for navel orangeworm - U04, U08, U12, U19, U22, U25, U26, U32, U49, U61, U64, U73, U78, U82, U92

Pentalitomastix plethoricus - for navel orangeworm - U22, U25, U26, U61, U82

Filth Fly Parasites

Muscidifurax raptor - C05, C11, U01, U03, U04, U05, U06, U07, U08, U09, U22, U23, U24, U39, U44, U51, U58, U67, U72, U73, U95

Muscidifurax raptorellus - C11, C12, C14, U03, U04, U05, U06, U07, U08, U09, U10, U22, U23, U24, U31, U36, U39, U40, U42, U44, U49, U51, U58, U64, U67, U72, U73, U78, U84, U88, U89, U90

Muscidifurax raptoroides - M18

Muscidifurax zaraptor - C02, C03, C09, C10, C12, C14, U03, U04, U06, U07, U08, U09, U10, U11, U13, U21, U22, U23, U24, U31, U36, U39, U40, U42, U44, U52, U58, U63, U64, U66, U72, U73, U74, U78, U84, U88, U89, U90, U95

Nasonia vitripennis - C03, C09, C11, U03, U06, U11, U24, U66, U72, U95

Spalangia cameroni - U03, U08, U13, U23, U44, U49, U58, U61, U72, U74, U80, U84

Spalangia endius - C03, C12, C14, U01, U03, U05, U07, U08, U09, U11, U13, U15, U22, U31, U36, U39, U44, U58, U61, U63, U66, U72, U73, U74, U78, U84, U89, U95

Spalangia nigroaenea - U05, U07, U08, U13, U23, U39, U44, U49, U58, U61, U72, U73, U74, U80, U95

Other Insect Parasites

Aceratoneuromyia indica - for fruit fly larvae - M19

Bracon kirkpatricki - an external parasite for cotton boll weevil larvae - U24

Diachasmimorpha (= *Biosteres*, = *Opius*) *longicaudata* (= *longicaudatus*) - for fruit fly larvae - M19, U06

Pediobius foveolatus - for bean beetle - C09, U06, U24, U79, U89

General Predators

Chrysoperla (= *Chrysopa*) *carnea* - common green lacewing - C03, C04, C06, C07, C10, C11, C12, C14, M03, M07, M08, M09, M11, M12, M14, M17, M18, M20, M21, M24, M27, M29, M30, U01, U03, U04, U05, U06, U07, U11, U12, U19, U22, U23, U24, U26, U29, U30, U31, U32, U36, U39, U40, U42, U43, U44, U47, U49, U50, U51, U56, U58, U61, U63, U66, U67, U72, U78, U80, U82, U89, U90, U92, U94, U95

Chrysoperla (= *Chrysopa*) *comanche* - Comanche lacewing - C14, U04, U05, U06, U07, U12, U22, U23, U24, U26, U31, U40, U42, U44, U49, U50, U61, U80, U82, U89

Chrysoperla (= *Chrysopa*) *rufilabris* - a green lacewing - C02, C03, C05, C09, C11, C14, M31, U01, U03, U04, U05, U06, U07, U08, U09, U11, U12, U13, U15, U21, U22, U23, U24, U26, U30, U31, U36, U39, U40, U42, U43, U44, U47, U49, U50, U51, U52, U58, U61, U64, U67, U69, U72, U73, U74, U78, U80, U82, U87, U88, U89, U92, U94, U95

Coleomegilla maculata - pink spotted lady beetle - C05

Cryptolaemus montrouzieri - mealybug destroyer, for scales and mealybugs - C03, C04, C06, C07, C08, C09, C11, C12, C14, U03, U05, U06, U09, U11, U12, U13, U19, U23, U24, U26, U29, U30, U31, U32, U34, U39, U40, U42, U43, U44, U47, U49, U50, U51, U52, U56, U63, U64, U66, U67, U69, U71, U73, U74, U75, U78, U80, U82, U88, U89, U92, U95

Delphastus pusillus - for whiteflies - C01, C03, C04, C07, C09, C11, C12, C14, U03, U05, U06, U09, U11, U13, U19, U23, U24, U29, U31, U37, U39, U42, U43, U44, U50, U51, U52, U67, U73, U74, U78, U80, U88, U89, U92, U95

Deraeocoris brevis - a true bug - C01, C07, C11, C14, U06, U31, U44, U78, U89, U92

Gambusia affinis - mosquito fish, for mosquitoes - U13, U28, U53, U66

Geocoris punctipes - a big-eyed bug - U15

Harmonia axyridis - Asian multi-colored lady beetle - C01, C05, C08, C11, U31, U78, U89

Hippodamia convergens - convergent lady beetle - C03, C06, C07, C08, C09, C10, C11, C12, C13, C14, U01, U03, U04, U05, U06, U07, U09, U11, U12, U13, U15, U23, U24, U29, U30, U31, U36, U40, U42, U43, U44, U49, U50, U51, U52, U56, U58, U59, U60, U61, U63, U64, U66, U67, U73, U74, U75, U78, U82, U87, U88, U89, U90, U92, U94, U95

Macrolophus caliginosus - for aphids and whiteflies - C07, C11

Mantis religiosa - European mantid, a praying mantid - C03, U11

Orius insidiosus - insidious flower bug - C04, C06, C07, C08, C09, C11, C12, C14, U05, U06, U09, U13, U24, U30, U31, U34, U42, U43, U44, U50, U51, U56, U64, U67, U69, U73, U74, U75, U78, U80, U88, U89, U92, U95

Orius tristicolor - minute pirate bug - C03, C09, C10, U05, U06, U11, U23, U24, U30, U66, U78, U95

Podisus maculiventris - spined soldier bug - C11, U85, U89

Rumina decollata - decollate snail, for snails - C09, U03, U05, U06, U13, U23, U24, U32, U47, U52, U62, U65, U71, U73, U74, U78, U80, U81, U92

Scolothrips sexmaculatus - sixspotted thrips, for mites and pest thrips - U02, U03, U05, U19, U23, U48, U49, U78, U82, U83, U92

Stethorus picipes - for orchard mites - U78

Tenodera aridifolia sinensis - Chinese mantid, a praying mantid - C06, C09, C10, C11, U01, U05, U06, U09, U13, U24, U29, U31, U36, U42, U43, U44, U52, U63, U66, U67, U73, U74, U87, U88, U89, U90, U92, U94, U95

Xylocoris flavipes - warehouse pirate bug, for moths and beetles in stored grains - U15, U24, U72

Weed Controls

Aceria (= *Eriophyes*) *chondrillae* - for rush skeletonweed - U16
Agrilus hyperici - for St. John's wort (Klamath weed) - U14
Agonopterix alstroemeriana - for poison hemlock - U16
Aphthona cyparissiae - for spurge - U16
Aphthona flava - for spurge - U16
Aphthona lacertosa - for spurge - U16
Aphthona nigriscutis - for spurge - U16
Apion fuscirostre - for Scotch broom - U14
Apion ulicis - for gorse - U14
Aplocera plagiata- for St. John's wort (Klamath weed) - U16
Bangasternus orientalis - for yellow starthistle - U06, U14, U16, U26, U73
Brachypterolus pulicarius - for toadflax - U16
Cassida rubiginosa - for Canada and musk thistles - U16
Ceutorhynchus litura - for Canada thistle - U16
Chrysolina quadrigemina - Klamath weed beetle for St. John's wort (Klamath weed) - U14, U16
Coleophora klimeschiella - for Russian thistle - U14
Coleophora parthenica - for Russian thistle - U14
Ctenopharyngodon idella - Chinese grass carp (white amur) for aquatic weeds - U45, U54, U55
Cystiphora schmidti - for rush skeletonweed - U16
Eustenopus villosus - for yellow starthistle - U26
Larinus planus - for Canada thistle - U16
Leucoptera spartifoliella - for Scotch broom - U14
Longitarsus jacobaeae - for tansy ragwort - U14, U16
Metzneria paucipunctella - for knapweed - U16
Microlarinus lareynii - puncturevine seed weevil - U14, U49, U61, U73
Microlarinus lypriformis - puncturevine stem weevil - U14, U49, U61, U73
Oberea erythrocephala - for leafy spurge - U16
Rhinocyllus conicus - different strains of weevil for Italian, milk, and musk thistles - U14, U16
Spurgia esulae - for spurge - U16
Trichosirocalus horridus - for musk thistle - U16
Tyria jacobaeae - cinnabar moth for tansy ragwort - U14
Urophora affinis - for knapweed - U16
Urophora cardui - for Canada thistle - U16
Urophora quadrifasciata - for knapweed - U16
Urophora sirunaseva - for yellow starthistle - U14
Zeuxidiplosis giardi - for St. John's wort (Klamath weed) - U14

Scientific Names Index

- Aceratoneuromyia indica* - M19
Aceria (= *Eriophyes*) *chondrillae* - U16
Agonopterix alstroemeriana - U16
Agrilus hyperici - U14
Amblyseius - (see *Iphiseius* and *Neoseiulus*)
Anagrus epos - U44
Anaphes iole - C05, C10, C11, U20, U51, U78, U88, U89, U92
Anastatus tenuipes - U76
Anisopteromalus calandrae - U15, U26
Aphelinus abdominalis - C04, C07, C08, C11, U29, U51, U56, U89
Aphidius colemani - C04, C06, C07, C08, C11, C12, C14, U05, U23, U24, U29, U30, U31, U34, U39, U40, U42, U43, U50, U51, U52, U56, U69, U74, U75, U78, U88, U89
Aphidius ervi - U56, U69
Aphidius matricariae - C01, C07, C14, U05, U06, U24, U30, U31, U32, U43, U44, U51, U64, U67, U78, U88, U89, U92, U95
Aphidoletes aphidimyza - C01, C03, C04, C06, C07, C08, C11, C14, U03, U05, U06, U09, U11, U13, U23, U24, U26, U29, U30, U31, U32, U39, U40, U42, U43, U44, U50, U51, U52, U56, U64, U66, U67, U73, U74, U75, U78, U88, U89, U92, U95
Aphthona cyparissiae - U16
Aphthona flava - U16
Aphthona lacertosa - U16
Aphthona nigriscutis - U16
Aphytis melinus - C03, C09, C11, C12, C14, U03, U05, U06, U11, U12, U23, U24, U26, U30, U31, U32, U33, U38, U39, U42, U43, U44, U47, U49, U51, U64, U66, U71, U73, U78, U81, U82, U83, U88, U89, U92
Apion fuscirostre - U14
Apion ulicis - U14
Aplocera plagiata - U16
Aprostocetus (= *Tetrastichus*) *hagenowii* - U76
Bangasternus orientalis - U06, U14, U16, U26, U73
Biosteres - (see *Diachasmimorpha*)
Brachypterolus pulicarius - U16
Bracon hebetor - U06, U15, U24, U26, U72
Bracon kirkpatricki - U24
Cassida rubiginosa - U16
Ceutorhynchus litura - U16
Chrysolina quadrigemina - U14, U16
Chrysopa - (see *Chrysoperla*)
Chrysoperla (= *Chrysopa*) *carnea* - C03, C04, C06, C07, C10, C11, C12, C14, M03, M07, M08, M09, M11, M12, M14, M17, M18, M20, M21, M24, M27, M29, M30, U01, U03, U04, U05, U06, U07, U11, U12, U19, U22, U23, U24, U26, U29, U30, U31, U32, U36, U39, U40, U42, U43, U44, U47, U49, U50, U51, U56, U58, U61, U63, U66, U67, U72, U78, U80, U82, U89, U90, U92, U94, U95
Chrysoperla (= *Chrysopa*) *comanche* - C14, U04, U05, U06, U07, U12, U22, U23, U24, U26, U31, U40, U42, U44, U49, U50, U61, U80, U82, U89
Chrysoperla (= *Chrysopa*) *rufilabris* - C02, C03, C05, C09, C11, C14, M31, U01, U03, U04, U05, U06, U07, U08, U09, U11, U12, U13, U15, U21, U22, U23, U24, U26, U30, U31, U36, U39, U40, U42, U43, U44, U47, U49, U50, U51, U52, U58, U61, U64, U67, U69, U72, U73, U74, U78, U80, U82, U87, U88, U89, U92, U94, U95
Coleomegilla maculata - C05
Coleophora klimeschiella - U14
Coleophora parthenica - U14
Comperia merceti - U76
Cotesia flavipes - M05, U24
Cotesia melanoscelus - U24
Cotesia plutellae - U15, U26
Cryptolaemus montrouzieri - C03, C04, C06, C07, C08, C09, C11, C12, C14, U03, U05, U06, U09, U11, U12, U13, U19, U23, U24, U26, U29, U30, U31, U32, U34, U39, U40, U42, U43, U44, U47, U49, U50, U51, U52, U56, U63, U64, U66, U67, U69, U71, U73, U74, U75, U78, U80, U82, U88, U89, U92, U95
Ctenopharyngodon idella - U45, U54, U55
Cystiphora schmidti - U16
Dacnusa sibirica - C04, C06, C07, C08, C11, C14, U03, U06, U24, U29, U31, U40, U43, U50, U51, U56, U66, U69, U75, U78, U89, U92
Delphastus pusillus - C01, C03, C04, C07, C09, C11, C12, C14, U03, U05, U06, U09, U11, U13, U19, U23, U24, U29, U31, U37, U39, U42, U43, U44, U50, U51, U52, U67, U73, U74, U78, U80, U88, U89, U92, U95
Deraeocoris brevis - C01, C07, C11, C14, U06, U31, U44, U78, U89, U92
Diachasmimorpha longicaudata (= *Biosteres longicaudatus*, = *Opius longicaudatus*) - M19, U06
Diaeretiella rapae - U06

Scientific Names Index (continued)

- Diglyphus isaea* - C04, C06, C07, C08, C09, C11, C14, U03, U06, U24, U29, U31, U40, U42, U43, U44, U50, U51, U52, U56, U66, U69, U74, U75, U78, U88, U89, U92
- Encarsia deserti* (= *luteola*) - U03, U05, U43, U50, U88
- Encarsia formosa* - C01, C03, C04, C06, C07, C08, C09, C10, C11, C12, C14, U03, U04, U05, U06, U07, U09, U11, U13, U21, U23, U24, U26, U29, U31, U32, U34, U36, U37, U39, U40, U42, U43, U44, U50, U51, U52, U56, U63, U64, U66, U67, U69, U72, U73, U74, U75, U78, U80, U87, U88, U89, U92, U95
- Eretmocerus californicus* - C04, C07, C08, C09, C11, U03, U05, U06, U08, U24, U31, U34, U40, U43, U50, U51, U56, U64, U69, U75, U78, U88, U89
- Eriophyes* - (see *Aceria*)
- Eustenopus villosus* - U26
- Feltiella acarisuga* (= *Therodiplosis persicae*) - C01, C04, C11, C12, C14, U31, U78, U89
- Galendromus annectans* - U03, U05, U06, U19, U20, U23, U24, U32, U47, U78
- Galendromus* (= *Typhlodromus*) *helveolus* - C09, C11, U03, U05, U06, U08, U19, U20, U23, U24, U31, U32, U47, U61, U78, U88, U92
- Galendromus* (= *Metaseiulus*, = *Typhlodromus*) *occidentalis* - C06, C07, C09, C11, C14, U02, U03, U04, U05, U06, U08, U12, U13, U19, U20, U22, U23, U24, U30, U31, U32, U40, U42, U43, U44, U48, U49, U51, U52, U61, U63, U66, U67, U73, U74, U78, U80, U82, U83, U88, U89, U92, U93, U95
- Gambusia affinis* - U13, U28, U53, U66
- Geocoris punctipes* - U15
- Goniozou legneri* - U04, U08, U12, U19, U22, U25, U26, U32, U49, U61, U64, U73, U78, U82, U92
- Harmonia axyridis* - C01, C05, C08, C11, U31, U78, U89
- Heterorhabdites bacteriophora* (= *heliothidis*) - C03, C09, C11, C12, U06, U09, U11, U17, U24, U31, U35, U36, U40, U42, U43, U44, U46, U51, U61, U64, U67, U68, U73, U74, U78, U80, U88, U89
- Heterorhabdites megidis* - C07, C08, C09, U06, U24, U40, U50, U56, U61, U75, U95
- Hippodamia convergens* - C03, C06, C07, C08, C09, C10, C11, C12, C13, C14, U01, U03, U04, U05, U06, U07, U09, U11, U12, U13, U15, U23, U24, U29, U30, U31, U36, U40, U42, U43, U44, U49, U50, U51, U52, U56, U58, U59, U60, U61, U63, U64, U66, U67, U73, U74, U75, U78, U82, U87, U88, U89, U90, U92, U94, U95
- Hypoaspis aculeifer* - U56, U75
- Hypoaspis miles* - C01, C04, C06, C07, C08, C09, C11, C12, C14, U03, U06, U23, U24, U30, U31, U40, U42, U43, U44, U50, U51, U56, U64, U69, U75, U78, U88, U89, U92
- Iphiseius* (= *Amblyseius*) *degenerans* - C01, C04, C07, C08, C11, C12, C14, U05, U31, U50, U51, U56, U78, U88, U89, U92
- Larinus planus* - U16
- Leptomastix dactylopii* - C04, C07, C08, C09, C11, C14, U06, U24, U30, U31, U43, U44, U50, U51, U56, U75, U88, U89
- Leucoptera spartifoliella* - U14
- Lindorus* - (see *Rhyzobius*)
- Longitarsus jacobaeae* - U14, U16
- Lysiphlebus testaceipes* - U72
- Macrolophus caliginosus* - C07, C11
- Mantis religiosa* - C03, U11
- Mesoseiulus* (= *Phytoseiulus*) *longipes* - C07, C09, C11, C12, C14, U05, U06, U08, U13, U20, U24, U30, U31, U36, U42, U43, U44, U50, U51, U52, U67, U73, U74, U78, U88, U89, U92, U95
- Metaphycus helvolus* - C03, C07, C09, C11, C14, U05, U06, U11, U24, U31, U33, U42, U43, U44, U50, U51, U66, U73, U78, U81, U88, U89, U92
- Metaseiulus* - (see *Galendromus*)
- Metzneria paucipunctella* - U16
- Microlarinus lareynii* - U14, U49, U61, U73
- Microlarinus lypriformis* - U14, U49, U61, U73
- Muscidifurax raptor* - C05, C11, U01, U03, U04, U05, U06, U07, U08, U09, U22, U23, U24, U39, U44, U51, U58, U67, U72, U73, U95
- Muscidifurax raptorellus* - C11, C12, C14, U03, U04, U05, U06, U07, U08, U09, U10, U22, U23, U24, U31, U36, U39, U40, U42, U44, U49, U51, U58, U64, U67, U72, U73, U78, U84, U88, U89, U90
- Muscidifurax raptoroides* - M18
- Muscidifurax zaraptor* - C02, C03, C09, C10, C12, C14, U03, U04, U06, U07, U08, U09, U10, U11, U13, U21, U22, U23, U24, U31, U36, U39, U40, U42, U44, U52, U58, U63, U64, U66, U72, U73, U74, U78, U84, U88, U89, U90, U95
- Nasonia vitripennis* - C03, C09, C11, U03, U06, U11, U24, U66, U72, U95
- Neoplectana* - (see *Steinernema*)
- Neoseiulus* (= *Amblyseius*, = *Phytoseiulus*) *barkeri* (= *mckenziei*) - C09, C11, C14, U05, U06, U24, U51, U66, U80, U88
- Neoseiulus* (= *Amblyseius*) *californicus* - C04, C06, C07, C08, C09, C11, C14, U03, U05, U06, U08, U09, U13, U19, U20, U24, U29, U30, U31, U36, U37, U42, U43, U44, U50, U51, U52, U56, U66, U67, U69, U73, U74, U75, U78, U80, U88, U89, U92, U95
- Neoseiulus* (= *Amblyseius*) *cucumeris* - C01, C03, C04, C06, C07, C08, C09, C10, C11, C12, C14, U03, U05, U06, U09, U11, U13, U23, U24, U26, U29, U30, U31, U34, U37, U42, U43, U44, U50, U51, U52, U56, U64, U66, U67, U69, U73, U74, U75, U78, U80, U88, U89
- Neoseiulus* (= *Amblyseius*) *fallacis* - C01, C07, C11, C12, C14, U05, U06, U09, U20, U24, U31, U37, U44, U50, U51, U78, U85, U88, U89, U92
- Neoseiulus setulus* - U06

Scientific Names Index (continued)

- Oberea erythrocephala* - U16
- Opius* - (see *Diachasmimorpha*)
- Orius insidiosus* - C04, C06, C07, C08, C09, C11, C12, C14, U05, U06, U09, U13, U24, U30, U31, U34, U42, U43, U44, U50, U51, U56, U64, U67, U69, U73, U74, U75, U78, U80, U88, U89, U92, U95
- Orius tricolor* - C03, C09, C10, U05, U06, U11, U23, U24, U30, U66, U78, U95
- Pediobius foveolatus* - C09, U06, U24, U79, U89
- Pentalitomastix plethoricus* - U22, U25, U26, U61, U82
- Phytoseiulus macropilis* - U05, U20, U30, U51, U89
- Phytoseiulus persimilis* - C01, C03, C04, C06, C07, C08, C09, C11, C12, C14, U03, U04, U05, U06, U08, U09, U11, U13, U20, U23, U24, U26, U27, U29, U30, U31, U32, U34, U36, U37, U40, U42, U43, U44, U50, U51, U52, U56, U57, U63, U64, U66, U67, U69, U73, U74, U75, U78, U86, U87, U88, U89, U92, U95
- Phytoseiulus* - (see *Mesoseiulus* and *Neoseiulus*)
- Podisus maculiventris* - C11, U85, U89
- Pseudaphycus angelicus* - U69
- Pyemotes tritici* - U24, U29, U72
- Rhinocyllus conicus* - U14, U16
- Rhizobius* (= *Lindorus*) *lophanthae* - C09, C11, C14, U05, U06, U24, U30, U31, U42, U43, U44, U50, U51, U64, U78, U88, U89, U92
- Rhizobius* (= *Lindorus*) *ventralis* - U78
- Rumina decollata* - C09, U03, U05, U06, U13, U23, U24, U32, U47, U52, U62, U65, U71, U73, U74, U78, U80, U81, U92
- Scolothrips sexmaculatus* - U02, U03, U05, U19, U23, U48, U49, U78, U82, U83, U92
- Spalangia cameroni* - U03, U08, U13, U23, U44, U49, U58, U61, U72, U74, U80, U84
- Spalangia endius* - C03, C12, C14, U01, U03, U05, U07, U08, U09, U11, U13, U15, U22, U31, U36, U39, U44, U58, U61, U63, U66, U72, U73, U74, U78, U84, U89, U95
- Spalangia nigroaenea* - U05, U07, U08, U13, U23, U39, U44, U49, U58, U61, U72, U73, U74, U80, U95
- Spurgia esulae* - U16
- Steinernema* (= *Neoaplectana*) *carpocapsae* - C03, C06, C07, C09, C10, C11, C12, C13, C14, U05, U06, U09, U11, U13, U17, U18, U21, U23, U24, U31, U39, U40, U42, U43, U44, U49, U52, U61, U63, U64, U67, U70, U73, U74, U78, U80, U88, U89, U91, U95
- Steinernema* (= *Neoaplectana*) *feltiae* (= *bibionis*) - C04, C07, C08, C11, U05, U06, U17, U24, U29, U30, U35, U40, U44, U46, U50, U51, U56, U64, U73, U75, U91
- Steinernema* (= *Neoaplectana*) *glaseri* - U05, U06, U24, U40, U87
- Steinernema riobravus* - U05, U06, U24, U40, U49, U91
- Stethorus picipes* - U78
- Stethorus punctillum* - C01, U89
- Tenodera aridifolia sinensis* - C06, C09, C10, C11, U01, U05, U06, U09, U13, U24, U29, U31, U36, U42, U43, U44, U52, U63, U66, U67, U73, U74, U87, U88, U89, U90, U92, U94, U95
- Therodiplosis* - (see *Feltiella*)
- Thripobius semiluteus* - C09, C11, U03, U06, U23, U24, U32, U44, U47, U51, U61, U67, U73, U78, U88, U89, U95
- Trichogramma brassicae* - C02, C05, C06, C07, C09, C11, C12, C14, U04, U05, U06, U08, U09, U22, U23, U24, U31, U39, U44, U51, U52, U56, U61, U64, U67, U72, U73, U74, U75, U78, U87, U88, U92
- Trichogramma evanescens* - C07, C09, C14, U05, U06, U08, U24, U50, U72
- Trichogramma exiguum* - M16, M18, M24
- Trichogramma minutum* - C02, C03, C09, C11, C14, M13, M22, U01, U04, U05, U06, U07, U08, U09, U11, U12, U13, U19, U24, U29, U31, U36, U39, U40, U42, U43, U44, U49, U50, U51, U52, U58, U63, U64, U66, U67, U72, U73, U74, U78, U80, U82, U88, U89, U90, U92, U94, U95
- Trichogramma platneri* - C02, C07, C09, C11, C12, C14, U01, U03, U04, U05, U06, U07, U08, U12, U13, U19, U22, U23, U24, U26, U31, U32, U39, U42, U44, U47, U49, U50, U52, U61, U63, U64, U66, U67, U72, U73, U74, U78, U82, U88, U89, U92
- Trichogramma pretiosum* - C02, C03, C09, C10, C11, C14, M01, M02, M03, M05, M06, M10, M11, M12, M13, M15, M17, M19, M20, M21, M22, M23, M25, M26, M27, M30, M31, M32, M33, U01, U03, U04, U05, U06, U07, U08, U09, U11, U12, U13, U15, U19, U21, U22, U24, U26, U29, U31, U32, U36, U39, U40, U42, U43, U44, U49, U50, U51, U52, U58, U61, U63, U64, U66, U67, U72, U73, U74, U78, U82, U87, U88, U89, U90, U92, U94, U95
- Trichogrammatoidea bactrae* - C09, M04, U04, U05, U06, U23, U24, U31, U39, U44, U50, U61, U63, U72, U78, U92
- Trichosirocalus horridus* - U16
- Typhlodromus pyri* - U44
- Typhlodromus rickeri* - U20, U78
- Typhlodromus* - (see *Galendromus*)
- Tyria jacobaeae* - U14
- Urophora affinis* - U16
- Urophora cardui* - U16
- Urophora quadrifasciata* - U16
- Urophora sirunaseva* - U14
- Xylocoris flavipes* - U15, U24, U72
- Zeuxidiplosis giardi* - U14

Web Sites - Biological Control and Integrated Pest Management

An electronic copy of this publication which can be downloaded and printed is available. An electronic database on suppliers of beneficial organisms in North America with additional information on biological control and integrated pest management is also available. Both can be accessed through the Department of Pesticide Regulation's Home Page at <http://www.cdpr.ca.gov>

The following is a brief listing of university and government **Web sites** on biological control and integrated pest management:

APHIS National Biological Control Institute (NBCI) - USDA Animal and Plant Health Service
<http://www.aphis.usda.gov/nbc/nbc.html>

APHIS Plant Protection Centers - USDA Animal and Plant Health Service
<http://www.aphis.usda.gov/PPQ/bco/>

Auburn's Biological Control Institute (BCI) - Auburn University
<http://www.ag.auburn.edu/bci/bci.html>

Cornell's Biological Control Home Page - Cornell University
<http://www.nysaes.cornell.edu:80/ent/biocontrol/index.html>

Florida Agricultural Information Retrieval System - University of Florida
<http://hammock.ifas.ufl.edu/>

Florida's National IPM Network - University of Florida
<http://hammock.ifas.ufl.edu/tmp/en.html>

NEB Guide - Biological Control of Insect and Mite Pests - University of Nebraska Cooperative Ext.
